Head of Department

Project Synopsis:

- **Aim:**
During the pandemic, an increasing number of covid patients and lack of medical facilities resulted in chaos on the medical services. As a result of many patients were unable to find proper hospital facilities in a quick period. So, AIM is to deploy a website with covid-19-tracker and a hospital system wherein;
 - Covid tracker would be used in general to keep track of the pandemic situation around the globe.
 - hospital management can enter available beds, oxygen, ventilator, and other basic hospital information like address, distance, and type of hospital.
- **Technology used:** React, HTML, CSS, JS, and FIREBASE
- **Dependencies:** Material-UI/icons, bootstrap, react-router-dom, RWebShare
- **Software Requirements:** VS Code, firestore and google maps
